

Pub Number	Topic	Title	Presenter
P-001	Dysraphism	Case Report: A Huge Lipomyelomeningocele	Ade Ricky Harahap
P-002	Dysraphism	Enlargement of spinal lipoma in early postnatal period	Kazuhisa Yoshifuji
P-003	Dysraphism	Diastematomyelia type I associated with intramedullary lipoma and dermoid cyst. An extremely rare case report	Katerina Apostolopoulou
P-004	Dysraphism	Prevalence of sleep apnea in children with myelomeningocele	Brandon George Rocque
P-005	Dysraphism	Factors affecting QOL following surgery for Spinal Dysraphism in Children	Sivashanmugam Dhandapani
P-006	Dysraphism	Epidemiological and clinical aspects of {Spina Bifida} and surgical management limits in a third-world country: report of a series of 30 cases and review of the literature	Meissa Hamza
P-007	Dysraphism	Surgery for Spinal Occult Dysraphism in a non-pediatric hospital	Abraham Ibarra De La Torre
P-008	Dysraphism	Multiple-site neural tube defects: Embryology and Management strategies	Dwarakanath Srinivas
P-009	Dysraphism	Multi Stage Procedures For Frontoethmoidal Meningoencephaloceles	Muhammad Azhary Lazuardy
P-010	Dysraphism	Neonatal chyloperitoneum following open myelomeningocele repair: Dealing with a rare finding	Ioannis N Mavridis
P-011	Dysraphism	Predicting neurological outcome after surgery for tethered cord based on intraoperative neuromonitoring outputs: How close can we get?	Suhas Udayakumaran
P-013	Dysraphism	Cerebrospinal Fluid Leakage and Meningitis after Resection of the Cervical Skin Tag	Inthira Khampalikit
P-014	Dysraphism	Our experience in treating children with fixed spinal cord in Currarino syndrome	Pavel Lobankin
P-015	Dysraphism	Dysraphisms: towards a new European Classification	Timothée De Saint Denis
P-016	Epilepsy	The occurrence and risk factors of new-onset seizures after ventricular shunting procedures	Mohammad Sadegh Masoudi
P-017	Epilepsy	Seizure-outcome of Long-term Epilepsy Associated Tumors (LEATs) in Pediatric and young adolescents	Suyash Singh
P-018	Epilepsy	Real-time MR Thermography-guided Laser Ablation for Hypothalamic Hamartomas in Pediatric Patients	Santiago Candela Cantó

Pub Number	Topic	Title	Presenter
P-019	Epilepsy	Real-time thermography-guided laser ablation to complete disconnective surgeries for refractory epilepsy in pediatric patients	Santiago Candela Cantó
P-020	Epilepsy	Stereotaxic biopsy prior to laser ablation of lesions causing refractory epilepsy in pediatric patients	Santiago Candela Cantó
P-021	Epilepsy	Focal Resection for epilepsy surgery in the very young	William Lo
P-022	Epilepsy	Determinants of Seizure Freedom in SEEG-guided Resective Epilepsy Surgery: Does it matter how much you resect?	Mehdi Khan
P-023	Epilepsy	The efficacy of corpus callosotomy for epileptic spasms: analysis of phase amplitude coupling	Yasushi Iimura
P-024	Epilepsy	Role of autostimulation responding to ictal tachycardia in VNS therapy for medically refractory epilepsy	Takamichi Yamamoto
P-025	Epilepsy	Surgical Treatment of Epilepsy in Children with Sturge-Weber Syndrome with focus on focal lesionectomy: A Case-Based Review	Nicole Frank
P-026	Functional	Quick protocol MRI without sedation for presurgical identification of the conus medullaris in selective dorsal rhizotomy patients	Leopold Arko Iv
P-027	Germ Cell Tumors	Craniospinal irradiation is necessary for primary intramedullary yolk sac tumor - Case Report and Review of Literature	Jimmy Ming Jung Chuang
P-028	Germ Cell Tumors	Treatment strategies for giant immature teratomas in early infants	Tomoru Miwa
P-029	Germ Cell Tumors	Intracranial germinoma originating from lateral ventricle with atypical symptom	Yuki Kuranari
P-030	Global Pediatric Neurosurgery	Surgical treatment of the lipomeningocele in children. A review	Olim Akramov Zaribovich
P-031	Global Pediatric Neurosurgery	Our experience and long term results in case with extreme macrocephaly with Dandy Walker syndrome	Mirchevski Vladimir
P-032	Global Pediatric Neurosurgery	Perioperative near-infrared spectroscopy cerebral oxygenation saturation in pediatric hydrocephalus patients in a low resource setting	Jo Ling Goh
P-033	Global Pediatric Neurosurgery	Multi-directional Cranial Distraction Osteogenesis (MCDO) and other procedures for sagittal synostosis	Masahiro Kameda
P-034	Global Pediatric Neurosurgery	Pediatric brain and spinal tumor presentation and management: experience from a national referral center in Bangladesh	Michael C. Dewan
P-035	Global Pediatric Neurosurgery	Intracerebral Abscess In Patient With Eisenmenger Syndrome	Arif Pebrianto Pebrianto

Pub Number	Topic	Title	Presenter
P-036	Global Pediatric Neurosurgery	Paediatric Meningiomas in Unusual Intracranial Locations: A Report of Three Filipino Cases	Jeanne Vyka Fugaban Sarangay
P-037	Global Pediatric Neurosurgery	Clinical spectrum of amniotic band syndrome and their importance in neurosurgery: A case report and literature review	Cut Vanessa Rachmadian
P-038	Global Pediatric Neurosurgery	Sellar Teratoma in a Child – Case Report and Review of the Literature	Katja Kuerner
P-039	Hydrocephalus	ETV and CPC for the treatment of hydrocephalus. Is there a role for plexectomy in the success outcome? How we do it	Garcia Gonzalez Oscar
P-040	Hydrocephalus	Iatrogenic occipital intradiploic and cervical intraosseous CSF collections – why do they develop and what we can learn	Arthur Robert Kurzbuch
P-041	Hydrocephalus	Outcome and Complications of Endoscopic Third Ventriculostomy for Obstructive Hydrocephalus: Experience at Lady Reading Hospital	Taimoor Ali
P-042	Hydrocephalus	Suprahepatic space as an alternative site for distal catheter insertion in pseudocyst-associated ventriculoperitoneal shunt malfunction	Zohreh Habibi
P-043	Hydrocephalus	ETV in infancy and childhood below 2 years of age	Ahmed El Damaty
P-044	Hydrocephalus	30-Day Outcomes After Intervention For Post-Hemorrhagic Hydrocephalus in Preterm Infants: A NSQIP-P Analysis	Shobhan Vachhrajani
P-045	Hydrocephalus	Management of Suprasellar Arachnoid Cysts in Children: A Systematic Literature Review Highlighting Modern Endoscopic Approaches	Christopher Bonfield
P-046	Hydrocephalus	Medico-economic aspects of the management of childhood hydrocephalus in the neurosurgery department of the Teaching hospital of Bouake (Côte d'Ivoire)	Broalet Maman You Espérance
P-047	Hydrocephalus	Pediatric nonresponsive hydrocephalus. When should we stop treating ?	Dan Aurel Nica
P-048	Hydrocephalus	Delayed bolus arrival time drives global cerebral hypoperfusion in paediatric obstructive hydrocephalus	Sebastian M Toescu
P-049	Hydrocephalus	A Thirteen Year Retrospective Review of Arachnoid Cysts in Children	Fozia Saeed
P-050	Hydrocephalus	Progressive macrocrania revealing a cerebral venous thrombosis on a {Dandy–Walker} syndrome: {A case report}	Meissa Hamza
P-051	Hydrocephalus	Factors of scheduled shunt withdrawal failure	Mihoko Kato
P-052	Hydrocephalus	Deliberate endoscopic third ventriculostomy for hydrocephalus in infants. Towards a subsequent ventriculoperitoneal shunt morbidity reduction ?	Matthieu Helleringer

Pub Number	Topic	Title	Presenter
P-053	Hydrocephalus	Time-To-Shunt in Myelomeningocele-associated Hydrocephalus in Dr. Soetomo General Academic Hospital, Indonesia	Rizki Meizikri
P-054	Hydrocephalus	Giant hydrocephalus: A study of its gravity, challenges and outcomes	Rohan Dilip Digarse
P-055	Hydrocephalus	“Possible Shunt Malfunction” Pathway for Paediatric Hydrocephalus – A Study of Clinical Outcomes and Cost Implications	Liting Tong
P-056	Hydrocephalus	Post Operative Seizure after First Time Endoscopic Third Ventriculostomy in Pediatric Patients	Ariana Barkley
P-057	Hydrocephalus	Low or negative pressure hydrocephalus in complex paediatric posterior fossa tumour	Kirsten Van Baarsen
P-058	Hydrocephalus	An audit of endoscopic third ventriculostomy (ETV) in a regional paediatric neurosurgical centre assessing the accuracy and feasibility of ETV success score (ETVss)	Dr Stefan Yordanov
P-059	Hydrocephalus	Comparison of different strategies in the prevention of slit ventricle syndrome in pediatric hydrocephalus	Sheng Che Chou
P-060	Hydrocephalus	Long term follow up more than 2 decades of patients who underwent endoscopic third ventriculostomy in a single institute	Kazuaki Shimoji
P-061	Hydrocephalus	Assessment of possibility of ventriculoperitoneal shunt removal and necessity of endoscopic third ventriculostomy by distal shunt externalization	Masahiro Nonaka
P-062	Hydrocephalus	Endoscopic Third Ventriculostomy and Endoscopic Fenestration in Multiloculated Hydrocephalus and Allergic Reaction to VP Shunt: A Case Report	Achmad Kurniawan
P-063	Hydrocephalus	Treatment of fetal hydrocephalus by ventriculoamniotic shunting: case report and literature review	Shuo Gu
P-064	Hydrocephalus	A Mathematical Model to Simulate Intracranial Pressure and Unified Interpretation of Several Disease Entities	Jingsheng Wang
P-065	Hydrocephalus	Stent and catheter placement with an intraluminal endoscope in 100 cases	Joachim Oertel
P-066	Hydrocephalus	Application of adjustable differential and antigravitational valve in pediatric hydrocephalus	Joachim Oertel
P-067	Hydrocephalus	The impact of aetiology on ventriculoperitoneal shunt failure in patients with hydrocephalus	Geraint Sunderland
P-068	Hydrocephalus	Telemetric brain pressure monitoring in perdiatric patients	Joachim Oertel
P-069	Hydrocephalus	Neurodevelopmental Outcome in Children with Congenital Hydrocephalus Who Underwent Ventriculoperitoneal Shunt: A Meta-Analysis	Danny Halim

Pub Number	Topic	Title	Presenter
P-070	Hydrocephalus	Therapy paradigm with the programmable gravitational valves (proSA) in pediatric hydrocephalic patients	Andreas Schaumann
P-071	Hydrocephalus	Telemetric intracranial pressure measurement in CSF circulation disturbances: a retrospective single-center study	Valentina Pennacchetti
P-072	Hydrocephalus	Hydrocephalus communicating associated to primary spinal primitive neuroectodermal tumor maybe extraneural metastases and intracranial seeding in a child: a case report	Abraham Ibarra De La Torre
P-073	Hydrocephalus	The incidence of infection-related-etiology and periventricular edema in pediatric hydrocephalus patients with history of seizure: A possible pathophysiology of seizure in hydrocephalus	Danny Halim
P-074	Hydrocephalus	Proposal of new classification system for multiloculated hydrocephalus	Sergei Kim
P-075	Hydrocephalus	Cognitive outcomes in post-haemorrhagic hydrocephalus are more important to parents than surgical outcomes: a patient and public involvement study	Saniya Mediratta
P-076	Hydrocephalus	Open versus Laparoscopic Ventriculoperitoneal Shunt Placement in Children: An international Survey of Practice.	Linus Ruf
P-077	Hydrocephalus	Open versus Laparoscopic Distal Ventriculoperitoneal Shunt Placement in Children: A Systematic Review and Meta-Analysis.	Ladina Greuter
P-078	Infection	Value of intraoperative Cerebro-Spinal fluid sampling during ventriculo-peritoneal shunt for congenital hydrocephalus	Dewa Pakshage Chula Kanishka Ananda Lal
P-079	Infection	TORCH infection and associated anterior circulation territories of brain: an observational study	Bipin Chaurasia
P-080	Infection	Anterior Interhemispheric Transcallosal Transchoroidal Fissure Approach for Third Ventricle Hydatid Cyst: An interesting approach to a rare entity	Seyed Ali Mousavinejad
P-081	Infection	Subdural empyema, an Accra perspective	Teddy Tsiate Totimeh
P-082	Infection	Neuroendoscopic Irrigation for Treatment of Ventriculitis after Cerebrospinal Fluid Diversion in Pediatrics: a Feasible Option or Not?	Fitra Fitra
P-083	Innovation and technology	Ultrasonic Bone Cutting in Endoscopic Craniosynostosis Surgery	Edward Ahn
P-084	Innovation and technology	Application of Soft tissue Expander in the treatment of skull defect with local large scalp scar	Wuqiang Che
P-085	Innovation and technology	Classification of Brain Tumours Stadium in Children using Recurrent Neural Network (RNN) Model Algorithm	Rifaldy Fajar
P-086	Innovation and technology	Surgical Planning for complicated intracranial cyst with DICOM neuroimaging 3D reconstruction	Jimmy Ming Jung Chuang

Pub Number	Topic	Title	Presenter
P-087	Innovation and technology	Minimally-invasive Parafascicular Surgical (MIPS) Approach for the Management of a Pediatric Third Ventricular Ependymoma: A Case Report	Marian Michael Bercu
P-088	Innovation and technology	Navigation guided endoscopic cyst aspiration and cysto-ventriculostomy with Ommaya reservoir placement for symptomatic intraparenchymal cyst in Labrune syndrome	Meshal Jarebi
P-089	Innovation and technology	Evaluation effectiveness and bioadaptation of various types of porcine collagen for duraplasty in an animal model	Roni Mai
P-090	Innovation and technology	The impact of telephone consultations due to Covid19 on Paediatric Neurosurgical health services	Katerina Apostolopoulou
P-091	Moya-Moya disease	Evaluation of Accuracy of Presurgical Optimal Target Point for Extracranial–Intracranial Bypass Surgery with Three-Dimensional Reconstructed Image–Based Presurgical Planning	Jimmy Ming Jung Chuang
P-092	Moya-Moya disease	Multiple burr hole surgery as a treatment modality for pediatric moyamoya disease	Gaddam Sai Harish
P-093	Moya-Moya disease	D-2-hydroxyglutaric aciduria type II associated with moyamoya syndrome in a 8 year old child – First report in the literature	Elke Januschek
P-094	Moya-Moya disease	Moyamoya Syndrome in a 10 year old female, Filipino child: A case report	Dexter Ayoso Dimaano
P-095	Moya-Moya disease	Surgical management and neuropsychological profile of pediatric Moyamoya patients	Katerina Apostolopoulou
P-097	Neuroendoscopy	Surgical Treatment and Outcome of Posterior Fossa Arachnoid Cysts in Infants	Jehuda Soleman
P-098	Neuroendoscopy	Endoscopic third ventriculostomy in patients with shunt malfunction: single centre analysis	Oleksandr S. Voloshchuk
P-099	Neuro-Oncology	Multidisciplinary management of spinal tumors in pediatric age. 10 year experience	Garcia Gonzalez Oscar
P-100	Neuro-Oncology	Utility of Squash Cytology in Intraoperative Diagnosis of Pediatric Central Nervous System Tumors: A Prospective Study of 31 Cases	Shashank Ravindra Ramdurg
P-101	Neuro-Oncology	Role of DTI in optochiasmatic glioma	Manas Panigrahi
P-102	Neuro-Oncology	ASXL1 expression was associated with prognosis of intracranial ependymoma in children	Yu Jianzhong
P-103	Neuro-Oncology	Pediatric skull base tumors in a single center: a management challenge	Ricardo Santos De Oliveira
P-104	Neuro-Oncology	Apoplexy of atypical teratoid/rhabdoid tumor in the pineal region after Ommaya reservoir drainage	Chenran Zhang

Pub Number	Topic	Title	Presenter
P-105	Neuro-Oncology	5-aminolevulinic acid-guided surgery for recurrent supratentorial paediatric CNS neoplasms	Jason Labuschagne
P-106	Neuro-Oncology	Hypoxia- and Dexamethasone-dependent interaction between HIF1 α and glucocorticoid receptor leads to cytoplasmic retention and degradation of glucocorticoid receptor in pituitary adenomas	Chenran Zhang
P-107	Neuro-Oncology	The spectrum of pediatric skull tumors	Martina Messing Jünger
P-108	Neuro-Oncology	A Thirteen-Year Review of Central Nervous System (CNS) Tumours in Infants at a Single Centre	Isabel Tulloch
P-109	Neuro-Oncology	Transsphenoidal Surgery in Pituitary Tumors among the Young	Sivashanmugam Dhandapani
P-110	Neuro-Oncology	Cerebellar swelling after surgery for medulloblastoma with leptomeningeal dissemination in children. A case-based update	Stella Irene
P-111	Neuro-Oncology	Pediatric posterior fossa ependymomas: Still à challenge for pediatric neurosurgeons and oncologists	Rel Gerald Boukaka
P-112	Neuro-Oncology	Long term surgical outcome of childhood and adolescent pilocytic astrocytoma	Suchanda Bhattacharjee
P-113	Neuro-Oncology	Machine-learning inference may predict quality of life subgroups of Adamantinomatous Craniopharyngioma	Astrid C Hengartner
P-114	Neuro-Oncology	Prevalence of human immunodeficiency virus infection in brain glioma patients: Is the virus protective from gliomas?	Luxwell Jokonya
P-115	Neuro-Oncology	Pediatric Pituitary Adenomas - A Different Clinical Entity?	Mohamed Amjad Jamaluddin
P-116	Neuro-Oncology	Atypical Teratoid Rhabdoid Tumours (ATRTs): a 23-year institutional Experience	Adikarige Haritha Dulanka Silva
P-117	Neuro-Oncology	Surgical management of choroid plexus tumors in children: A cohort series of 35 cases	Tai Tong Wong
P-118	Neuro-Oncology	A Retrospective Study of Pediatric Brain Tumors from a Tertiary Care in South China	Huirong Mai
P-119	Neuro-Oncology	Endoscopic Ommaya reservoir placement via third ventricular stoma for intrathecal methotrexate administration for subarachnoid dissemination of medulloblastoma	Azumi Kaneoka
P-120	Neuro-Oncology	Endoscopic extended transsphenoidal surgery for newly diagnosed paediatric craniopharyngiomas	Michael Amoo
P-121	Neuro-Oncology	Pediatric vestibular schwannomas without clinical evidence of neurofibromatosis: Microsurgical experience of 18 consecutive patients	Ken Matsushima

Pub Number	Topic	Title	Presenter
P-122	Neuro-Oncology	Mapping the research landscape in cerebellar mutism and posterior fossa syndrome	Aaron Lawson McLean
P-123	Neuro-Oncology	The prevalence of Cancer Predisposition Syndromes in Pediatric High Grade Glioma in Saudi Arabia	Mahmoud Taha
P-124	Neuro-Oncology	Central Nervous System Lymphoblastic Chloromas: Management of refractory Acute Lymphoblastic Leukemia in Pediatric Patients after Stem Cell Transplantation	Aleka Nicole Scoco
P-125	Neuro-Oncology	A Rare Case of Brain Metastasis of Embryonal Rhabdomyosarcoma in 7-year old Girl: Case Report	Nikkita Ihsan
P-126	Neuro-Oncology	The Landscape of Neuro-oncology in East Africa: A Review of Published Records	Joseline Haizel Cobbina
P-127	Neuro-Oncology	Incidental Pituitary Cysts in Children: Does Growth Hormone Treatment Affect Cyst Size?	Brandon G Rocque
P-128	Neurotrauma/ Critical Care	Role of routine post-operative CT Brain following evacuation of extradural haematoma in Children; a single-centre experience	Michael Oluwaseun Amoo
P-129	Neurotrauma/ Critical Care	Optimizing transfusion-related postoperative outcomes in craniosynostosis repair	Robin Yang
P-130	Neurotrauma/ Critical Care	Traumatic atlantooccipital distraction – prevention by using finite element models	Cordula Scherer
P-131	Neurotrauma/ Critical Care	Establishment of the Dutch Pediatric Craniectomy and Cranioplasty Registry (DPCCR) - A Prospective Multicenter Open Registry	Vita M. Klieverik
P-132	Neurotrauma/ Critical Care	Extradural hematoma in children: experience of Centre Hospitalier National Universitaire de Fann at Dakar- Sénégal	Rel Gerald Boukaka
P-134	Neurotrauma/ Critical Care	Efficacy of Hinge and Floating Decompressive Craniotomy for Infantile Acute Subdural Hematoma	Tae Kyun Kim
P-135	Neurotrauma/ Critical Care	Penetrating Brain Injury In Pediatrics With Double Approach Of Sub-Frontal Craniotomy And Endoscopic Endonasal For Anterior Skull Base Reconstruction: A Case Report	Andhika Tomy Permana
P-136	Neurotrauma/ Critical Care	Endolumbal Ozone and Pyracetam Insufflation in the Postoperative Period after Evacuation of Posttraumatic Arachnoid Cysts	Mansur A. Aliev
P-137	Neurotrauma/ Critical Care	Traumatic cerebrospinal fluid (CSF) Leak in infants	Yahya H. Khormi
P-138	Neurotrauma/ Critical Care	Acidification of the intracellular environment during an acute period after a concussion according to MR spectroscopy	Petr Bulanov
