

Pub Number	Topic	Title	Presenter
FL-002	Dysraphism	Is limited dorsal myeloschisis truly a benign form of spinal dysraphism??? -A series of 19 cases at tertiary level hospital	Shashank Ravindra Ramdurg
FL-005	Dysraphism	Surgical management of myelomeningocele-related spinal deformities	Olga M Sergeenko
FL-006	Dysraphism	Monitoring profile and significant event criteria for Intraoperative neuromonitoring in detethering of tethered cord at the level of conus medullaris	Suhas Udayakumaran
FL-009	Epilepsy	Seizure outcome after surgery for pediatric epilepsy-related brain tumor	Kenichi Usami
FL-010	Epilepsy	Epilepsy And Focal Cortical Dysplasia. Should The Two-Medication Failure Paradigm Be Pursued?	Ido Ben Zvi
FL-013	Epilepsy	The use of robot-assistance enables more SEEG electrodes to be implanted and improves clinical outcome	Ioannis N Mavridis
FL-015	Epilepsy	Hemispherotomy for epilepsy in the very young	Joshua Pepper
PF-009	Epilepsy	Intraoperative Brain Mapping to Identify Corticospinal Projections during Epilepsy Surgery in Patient with Hemiparesis and Drug-Resistant Epilepsy	Hsin Hung Chen
PF-010	Epilepsy	Limits of Epilepsy Surgery in Children	Helio Rubens Machado
FL-016	Functional	Intra-operative neurophysiological monitoring in selective dorsal rhizotomy	Bo Xiao
FL-017	Functional	Quality of life after selective dorsal rhizotomy: an assessment of family-reported outcomes using the CPQoL questionnaire	James MW Robins
FL-018	Functional	A Ten-Year Retrospective Review of Intrathecal Baclofen Delivery in Children at a Single Centre	Neeraj Kalra
FL-019	Functional	Selective Dorsal Rhizotomy: Goals of a new "0 Level" or "interlaminar approach" less invasive technique	Syril James
PF-017	Functional	Outcomes following SDR in children with bilateral spastic Cerebral Palsy and GMFCS Level IV	Adikarige Haritha Dulanka Silva
FL-021	Germ Cell Tumors	A Single UK Centre Analysis of Open Surgical Resection for Pineal Region Tumours in Children	Oliver Richards
FL-023	Global Pediatric Neurosurgery	Policy Recommendations for the Prevention of Spina Bifida in Low-and-Middle Income Countries	Ashley K. Birch
FL-025	Global Pediatric Neurosurgery	Predictors of Delayed Access to Care for Pediatric Hydrocephalus in Vietnam	Le Quang My

Pub Number	Topic	Title	Presenter
FL-026	Global Pediatric Neurosurgery	First UK series of endoscopic strip craniectomy with post-operative helmeting for craniosynostosis: early report of peri-operative experience	Jonathan Halim
FL-027	Global Pediatric Neurosurgery	Surgical Systems Policy Recommendations for the Treatment of Hydrocephalus and Spina Bifida in Low and Middle Income Countries	Kathrin Zimmerman
FL-028	Global Pediatric Neurosurgery	Minimal invasive cranioplasty in syndromic multisuture craniosynostosis	Martina Messing Jünger
FL-029	Global Pediatric Neurosurgery	Clinical variety and prognosis of arachnoid cysts in children	Stephanie Jünger
FL-030	Global Pediatric Neurosurgery	Intracavitary Irradiation in Pediatric Craniopharyngiomas: A Systematic Review and Meta-analysis	Mariana Mazzuia Guimarães
FL-032	Global Pediatric Neurosurgery	A report on the separation of our 4th set of Craniopagus (CPT 4) twins at GOSH – are we learning from our experience?	Noor Ul Owase Jeelani
FL-033	Global Pediatric Neurosurgery	Incidence and Outcomes of Myelomeningocele in a tertiary referral hospital in the Philippines	Juan Silvestre Grecia Pascual
PF-022	Global Pediatric Neurosurgery	Management of residual bone defects after craniosynostosis surgery	Motaz Alsereihi
PF-024	Global Pediatric Neurosurgery	Pediatric Neurosurgery in Asia and Australasia: Training and Clinical Practice	Ronnie E. Baticulon
PF-025	Global Pediatric Neurosurgery	Folate Fortification and Supplementation in Prevention of Neural Tube Defects: A Systematic Review of Policy	Nathan A. Shlobin
FL-034	Hydrocephalus	The movement of particles in cerebrospinal fluid is regulated by its size and molecular weight	Takuya Akai
FL-035	Hydrocephalus	Thrombocytopenia: an indicator for escaping post-hemorrhagic hydrocephalus after intraventricular hemorrhage in neonates?	Ahmed El Damaty
FL-036	Hydrocephalus	Retrospective study of fetal ventriculomegaly; natural course and neurodevelopmental status	Farideh Nejat
FL-039	Hydrocephalus	Altered CSF dynamics following surgical intervention for Chiari malformation in a paediatric population - a 13 year cohort study	Neeraj Kalra
FL-040	Hydrocephalus	Management of Middle Cranial Fossa Arachnoid Cysts: A pilot survey study of members of the Canadian Pediatric Neurosurgery Study Group	Pramath Kakodkar
FL-042	Hydrocephalus	Predicting ETV success with the ETVSS: Does age matter?	Abbey Boyle
FL-048	Hydrocephalus	The impact of age on the rate of ventriculoperitoneal shunt failure in patients with hydrocephalus	Alexandra Jayne Nelson

Pub Number	Topic	Title	Presenter
FL-049	Hydrocephalus	CSF Diversion for Post-Hemorrhagic Hydrocephalus: Predictive Factors for Definitive CSF Diversion in a Reservoir Wean Trial	Jackson Pearce
FL-050	Hydrocephalus	Post-haemorrhagic hydrocephalus is associated with poorer surgical and neurodevelopmental outcomes than other aetiologies of infantile hydrocephalus	Malak Mohamed
FL-051	Hydrocephalus	Ventriculoperitoneal shunt drainage increases with gravity and cerebrospinal fluid pressure pulsations: benchtop model	Joyce Koueik
PF-029	Hydrocephalus	Reliability of the Radiopharmaceutical Shunt Flow Study in the Presence of Stable Ventricular Size for the Detection of a Cerebrospinal Fluid Shunt Malfunction	J. Gordon McComb
PF-033	Hydrocephalus	ShuntScope in Children- Experience with 61 Procedures	Anna Praisnar Borak
FL-052	Infection	Predictors and surgical outcome of spontaneous subdural empyema in children: An institutional experience	Subhas Konar
FL-053	Infection	The Effect of External Ventricular Drain Tunneling Length on CSF Infection rate in Pediatric Patients: A Randomized, Double-blind, Three-arm Controlled Trial	Zohreh Habibi
FL-054	Infection	Implementation of a Shunt Insertion Protocol and its Effect on Institutional Shunt Infection Rates	Miriam Claire Ortua Dy
PF-037	Infection	Cerebellitis as a Neurosurgical Disease in Pediatrics	Sandi Lam
FL-055	Innovation and technology	Technological innovations in the management of spinal cord tumors in children	Luca Massimi
FL-056	Innovation and technology	State of the art in neurosurgery: navigation-assisted neuroendoscopy. Our Experience	Dan Aurel Nica
FL-057	Innovation and technology	3D and virtual reality applications in neurosurgical oncology	Andrea Carai
FL-058	Innovation and technology	'Dynamic' intraoperative ultrasound (dIOUS): How pressure irrigation of the surgical cavity may enhance IOUS diagnostic accuracy	Gianpiero Tamburrini
FL-059	Innovation and technology	Deep Learning-Based Single-Cell RNA Sequencing Differentiation Identifies Simple and Complex Transcriptional Networks for Subpopulation Classification	Eric Prince
FL-060	Moya-Moya disease	Indirect revascularization for moyamoya patients more than 40 years of age	Meng Fai Kuo
FL-062	Moya-Moya disease	Surgical revascularisation (SR) for Paediatric Moya Moya (MM): early outcomes from a surgical apprenticeship and lessons learned	Adikarige Silva
FL-063	Moya-Moya disease	Functional outcomes post encephalo-duro-arteriomyo synangiosis procedure for Moyamoya Disease: A single centre experience	Neeraj Kalra

Pub Number	Topic	Title	Presenter
PF-042	Moya-Moya disease	Current trends in Pediatric Moyamoya: A survey of International Practitioners	Harishchandra Lalgudi Srinivasan
FL-065	Neuro-Oncology	CDKN2A deletion in supratentorial ependymoma with RELA alteration indicates a dismal prognosis – a retrospective analysis of the HIT ependymoma trial cohort	Stephanie Theresa Jünger
FL-066	Neuro-Oncology	Management of pediatric tectal plate gliomas	Chenran Zhang
FL-067	Neuro-Oncology	Supraorbital Keyhole Approach in pediatric patients: Lessons Learned from 25 Operative Cases	Ricardo Santos De Oliveira
FL-068	Neuro-Oncology	Protein signature of pediatric craniopharyngioma	Luca Massimi
FL-070	Neuro-Oncology	Optic pathway tumor in children: toward a new classification for neurosurgical use	Stella Irene
FL-071	Neuro-Oncology	Optimising surgical management of optic pathway gliomas	Ciaran Scott Hill
FL-073	Neuro-Oncology	Non-operative management of suspected calvarial Langerhans Cell Histiocytosis in children – a prospective multicenter study	Paul Steinbok
FL-074	Neuro-Oncology	Epidemiology of pediatric primary brain tumors: A five-year review from a single Indonesian tertiary health-care center	Yunus Kuntawi Aji
FL-075	Neuro-Oncology	Blood-brain barrier disruption and enhanced drug delivery with an unfocused ultrasound device in the brainstem – A preclinical study in healthy and tumor-bearing mice	Kévin Beccaria
FL-076	Neuro-Oncology	Usefulness of bevacizumab in maintaining quality of life at the time of diffuse intrinsic pontine glioma relapse	Akira Gomi
FL-080	Neuro-Oncology	Endoscopic Endonasal Skull-base Surgery in the Pediatric Population: A single centre experience	Hanan Algethami
FL-081	Neuro-Oncology	Quantitative MR Imaging Features Associated With Unique Transcriptional Characteristics in Pediatric Adamantinomatous Craniopharyngioma: A Potential Guide For Therapy	David Mirsky
FL-083	Neurotrauma/ Critical Care	Nakamura type I acute subdural hematoma in infant: Re-evaluation and contemporary role in diagnosis of AHT	Young Soo Park
FL-084	Neurotrauma/ Critical Care	Decompressive craniectomies in children during the years 2009 – 2019 in Finland	Niina Salokorpi
FL-087	Neurotrauma/ Critical Care	Protocol for Nonsurgical Management of Epidural Haematoma in Children: Experience in 153 Cases	Artur Henrique Galvao Bruno Da Cunha
FL-088	Neurotrauma/ Critical Care	Evaluation of the neurosurgical care of paediatric linear skull fractures	Tom James Grundy

Pub Number	Topic	Title	Presenter
FL-089	Neurotrauma/ Critical Care	Metabolic and microstructural changes in children with severe TBI and HIBI. DTI and 1H MRS study.	Tolibdzhon Akhadov
FL-090	Neurotrauma/ Critical Care	Effects of hypertonic saline on ICP and cerebral autoregulation in pediatric traumatic brain injury	Julian Zipfel
NS-002	Nursing Symposium	An Argument for Specialized Neurosurgical Nursing in Low-and-Middle Income Countries: One Nurse's Experience	Ashley K Birch
NS-005	Nursing Symposium	Lived Experience of Mothers of Children with Spina Bifida	Manju Dhandapani
NS-006	Nursing Symposium	Application of the custom-made preparation program	Toshiko Momokawa
NS-011	Nursing Symposium	Clinical effectiveness and family experience of telephonic consultation in a regional pediatric neurosurgery center in the United Kingdom	Katie Elizabeth Herbert
FL-092	Occult tethered cord	Treatment strategy of complex meningocele	Kongbin Yang
FL-093	Occult tethered cord	Split Cord and Concurrent Tethered Cord Syndrome: Case Series with Long-term Follow-up	Andrew Joshua Kobets
FL-095	Occult tethered cord	Surgery for the tethered cord syndrome following repair of lumbosacral congenital anomalies	Nobuhito Morota
FL-096	Occult tethered cord	Occult tethered cord syndrome: a rare treatable condition	Jeyul Yang
FL-097	Other	Cerebrospinal fluid leakage after cranial surgery in the pediatric population – Preliminary results of a systematic review and meta-analysis	Emma M.H. Slot
FL-098	Other	Physician Influence on Parental Decision to Allow Child Participation in Sports	Christopher Bonfield
FL-100	Other	Comparison of Aesthetic Outcomes between Open and Endoscopically Treated Sagittal Craniosynostosis	Jacob Richard Lepard
FL-101	Other	Foramen Magnum Decompression surgery for Paediatric Chiari I malformation: an aetiology based approach	Alexandra Valetopoulou
FL-102	Other	Treatment of Pediatric Cerebral Venous Sinus Thromboses: the Role of Anticoagulation	Nathan A. Shlobin
FL-105	Other	A Novel Quantitative Method for Assessment of the surgical Outcome of Patients with Craniosynostosis	Young Sill Kang
FL-106	Other	Isolated Frontosphenoidal Craniosynostosis: The Alder Hey Experience and a Novel Algorithm to Aid Diagnosis	Anusha Henedige

Pub Number	Topic	Title	Presenter
FL-107	Other	The level of γ -aminobutyric acid in posterior cingulate cortex of children with mild TBI	Andrei Manzhurtsev
PF-050	Other	Results of the surgical treatment in children with Chiari 1 malformation: Oulu experience	Niina Salokorpi
PF-056	Other	Part 1: Surgical Correction in 231 Trigenocephaly Patients - The Alder Hey Experience	Chris Parks
FL-109	Spine	Management of Chiari malformation – individualized treatment and outcome	Martina Messing Jünger
FL-112	Spine	Surgical management patients with mucopolysaccharidosis - related spinal deformities	Polina Ochirova
PF-059	Spine	Instrumentation of the Paediatric Craniovertebral Junction: A Review of Practice	Fozia Saeed
PF-062	Spine	Split laminotomy in pediatric spinal surgery	Yoko Nakanishi
FL-113	Vascular	Establishing a reference centre for management of paediatric CNS arteriovenous malformations - experience of the first 5 years	Ido Ben Zvi
FL-114	Vascular	Surgical management cerebral and medullary cavernomas in children	Di Rocco Federico
