

Poster Number	Poster Session	Poster Group	Topic	Title	Presenter	Country
PP-001	Poster Session 1	Group 1	Innovation and technology	Development and validation of a remote video acquisition and analysis protocol using artificial intelligence for evaluation of gait	Albert Tu	Canada
PP-002	Poster Session 1	Group 1	Innovation and technology	Neurosurgery Cocktail -Its Impact on Neurosurgical Communication and Research	Bipin Chaurasia	Nepal
PP-003	Poster Session 1	Group 1	Innovation and technology	Technical Note on Inside-Out Approach for Foramen Magnum Decompression in Children with Achondroplasia	Moise Danielpour	United States
PP-004	Poster Session 1	Group 1	Innovation and technology	Brainstem Neuroenteric cyst: A novel management proposal	Chandrasekaran Kaliaperumal	United Kingdom
PP-005	Poster Session 1	Group 1	Innovation and technology	Music Therapy as a peri-operative intervention in Paediatric Neurosurgical patients( MuPeNS-Study)	Chandrasekaran Kaliaperumal	United Kingdom
PP-006	Poster Session 1	Group 1	Innovation and technology	Music Intervention for Paediatric peri-operative care: MuPeNS Study- Pilot feasibility study	Chandrasekaran Kaliaperumal	United Kingdom
PP-007	Poster Session 1	Group 1	Innovation and technology	Novel intraoperative neurophysiological techniques to preserve brain connectivity during asleep surgery: Implications for Pediatric Neurosurgery	Francesco Sala	Italy
PP-008	Poster Session 1	Group 1	Innovation and technology	Error in pediatric scoliosis curve measurement and the role of artificial intelligence and machine learning for accurate diagnosis: a pilot study from multi-institutional experience	Hasan Raza Syed	United States
PP-009	Poster Session 1	Group 1	Innovation and technology	Clinical Applications of focused ultrasound in pediatric neurosurgery: novel management for pediatric brain tumors	Hasan Raza Syed	United States
PP-010	Poster Session 1	Group 1	Innovation and technology	The evolution of Linear Accelerator Radiosurgery for Pediatric Central Nervous System lesions: The Hyperarc and OSMS	João Gabriel Ribeiro Gomes	Brazil
PP-011	Poster Session 1	Group 1	Innovation and technology	Case report of vagal nerve stimulator dysfunction from a mechanical toy and literature review of toy-related programmable device dysfunction	Rebecca Chave Cox	United Kingdom
PP-012	Poster Session 1	Group 1	Innovation and technology	Pediatric Neurosurgeons as Innovators: An Analysis of the Patents of North American Pediatric Neurosurgeons	Sandi Lam	United States
PP-013	Poster Session 1	Group 1	Innovation and technology	Minimal invasive treatment of non-syndromal craniosynostosis	Thomas Hauser	Austria
PP-014	Poster Session 1	Group 1	Innovation and technology	Gene therapy for pediatric neurologic diseases: New tools in neurosurgeon's box to improve delivery	Timothée De Saint Denis	France
PP-015	Poster Session 1	Group 1	Global Pediatric Neurosurgery	Giant Calcified Cephalohematoma Crossing the Sagittal Suture: A Systematic Review with Case Illustration, Modified Classification and Management Algorithm	Omar Aljohani	Saudi Arabia
PP-016	Poster Session 1	Group 1	Moya-Moya disease	Identification of diagnostic biomarkers for pediatric Moyamoya disease based on plasma-derived extracellular vesicle miRNA	Eun Jung Koh	South Korea
PP-017	Poster Session 1	Group 1	Hydrocephalus	Effect of on shunt survival of the biochemical and cellular properties of cerebrospinal fluid among patients following ventriculoperitoneal shunting	Benjamin Kasyoka Mutiso	Kenya
PP-018	Poster Session 1	Group 1	Hydrocephalus	Pitfalls in diagnosis of shunt malfunction in children	Chandrasekaran Kaliaperumal	United Kingdom
PP-019	Poster Session 1	Group 1	Hydrocephalus	Management guidelines for Long tunnelled Ventricular drain in paediatric brain tumour: a medical and nursing perspective	Chandrasekaran Kaliaperumal	United Kingdom
PP-020	Poster Session 1	Group 1	Hydrocephalus	Neuroendoscopic Lavage in preterm infants with IVH	Christian Auer	Austria
PP-021	Poster Session 1	Group 1	Hydrocephalus	The Role of Ventriculoperitoneal Shunt Placements in Palliative Care	Eylem Ocal	United States
PP-022	Poster Session 1	Group 1	Hydrocephalus	Approaching hydrocephalus in pediatric posterior fossa tumors	Hsin Hung Chen	Taiwan
PP-023	Poster Session 1	Group 1	Hydrocephalus	A 25 years experience of Endoscopic Third Ventriculostomy (ETV). – a single institute retrospective analysis actively introduced ETV in infantile obstructive hydrocephalus -	Kazuaki Shimoji	Japan

Poster Number	Poster Session	Poster Group	Topic	Title	Presenter	Country
PP-024	Poster Session 1	Group 1	Hydrocephalus	The management of hydrocephalus in median posterior fossa cystic collections: surgical outcome from a retrospective single-center series of 54 consecutive pediatric patients	Lelio Guida	France
PP-025	Poster Session 1	Group 1	Hydrocephalus	Abdominal Pseudocysts with Children with Ventriculoperitoneal Shunts: A Systematic Review and Proposed Approach to Management	Melissa LoPresti	United States
PP-026	Poster Session 1	Group 2	Hydrocephalus	Suggested Predictive Scoring System for Postresection Hydrocephalus in Pediatric Patients with Posterior Fossa Tumors	Noor Ul Huda Ul Maria	Pakistan
PP-027	Poster Session 1	Group 2	Hydrocephalus	Proposed Predictive Scoring System for Postresection Hydrocephalus in Pediatric Patients with Posterior Fossa Tumors	Noor Ul Huda Ul Maria	Pakistan
PP-028	Poster Session 1	Group 2	Hydrocephalus	Choroid Plexus endoscopic removal in children with hydrocephalus. Surgical technique and clinical outcome	Oscar Garcia González	Mexico
PP-029	Poster Session 1	Group 2	Hydrocephalus	"Shunt site pain with calcified catheter and functioning VP shunt – to operate or not?"	Rehman Ali Baig	United Kingdom
PP-030	Poster Session 1	Group 2	Hydrocephalus	Prevention of slit ventricle syndrome by the use of antisiphon devices in shunt-treated hydrocephalic children	Ryo Ando	Japan
PP-031	Poster Session 1	Group 2	Hydrocephalus	Retrospective Study comparing Outcomes between Ultrasound-guided VP shunt insertion and Free-hand insertion	Shi Hui Ong	Singapore
PP-032	Poster Session 1	Group 2	Hydrocephalus	Multiloculated hydrocephalus presenting as bobble doll head syndrome	Shighakolli Ramesh	India
PP-033	Poster Session 1	Group 2	Hydrocephalus	Role of neuroendoscopy (rigid and flexible) in management of hydrocephalus: Our experience in last 5 years	Shighakolli Ramesh	India
PP-034	Poster Session 1	Group 2	Hydrocephalus	Hydrocephalus associated with spinal dysraphism -which CSF diversion procedure is ideal ?	Supriya Chauhan	India
PP-035	Poster Session 1	Group 2	Hydrocephalus	Hydrocephalus associated with spinal dysraphism- which CSF diversion is ideal?	Supriya Chauhan	India
PP-036	Poster Session 1	Group 2	Hydrocephalus	Factors affecting the success of endoscopic third ventriculostomy in infective Hydrocephalus	Sushanta Kumar Sahoo	India
PP-037	Poster Session 1	Group 2	Neuroendoscopy	Endoscopic Suturectomy in Sagittal Craniosynostosis Treatment: Preliminary Case Series in the Indonesian National Referral Hospital	Antari Rahmadani Harmani	Indonesia
PP-038	Poster Session 1	Group 2	Neuroendoscopy	Endoscopic septostomy for post infectious multiloculated hydrocephalous to prevent multiple shunt surgeries in children – a case series	Apinderpreet Singh	India
PP-039	Poster Session 1	Group 2	Neuroendoscopy	Technical Considerations in Flexible Endoscopic Biopsy of Pediatric Brain Tumors	Carolyn S Quinsey	United States
PP-040	Poster Session 1	Group 2	Neuroendoscopy	Use of GOLD Laser in Endoscopic Third Ventriculostomies: Report of 30 Cases	David F Jimenez Md, Facs, Faans.	United States
PP-041	Poster Session 1	Group 2	Neuroendoscopy	Complete monoportal fully endoscopic resection of pineal region tumour via the transchoroid approach	David Rowland	United Kingdom
PP-042	Poster Session 1	Group 2	Neuroendoscopy	The role of CSF dynamics in the early morphological changes after endoscopy and helmet therapy for scaphocephaly	Federico Di Rocco	France
PP-043	Poster Session 1	Group 2	Neuroendoscopy	Intracranial Neuroendoscopy in Children and Adults: A Comparative Analysis	Jehuda Soleman	Switzerland
PP-044	Poster Session 1	Group 2	Neuroendoscopy	Trans Nasal Endoscopy in Paediatric Sella – Suprasellar Lesions – A Citadel for Varied Spectra Of Lesions, An Institutional Experience	Gowtham Matham	India
PP-045	Poster Session 1	Group 2	Neuroendoscopy	Flexible endoscope assisted suture release (FEASR) and barrel stave osteotomy for the correction of sagittal synostosis	Jason Labuschagne	South Africa
PP-046	Poster Session 1	Group 2	Neuroendoscopy	endoscopic transorbital resection of a rare orbital alveolar soft part sarcoma in a 3-year old: a mimicker of haemangioma	Joyce Shuk Wan Chow	Hong Kong

Poster Number	Poster Session	Poster Group	Topic	Title	Presenter	Country
PP-047	Poster Session 1	Group 2	Neuroendoscopy	Neuroendoscopy in the Management of Pineal Region Tumours in Children	Chandrashekhar. E. Deopujari	India
PP-048	Poster Session 1	Group 2	Neuroendoscopy	Neuroendoscopy and management of ruptured intracranial Sylvian arachnoid cysts	Luca Massimi	Italy
PP-049	Poster Session 1	Group 2	Neuroendoscopy	Endoscopic Management of Lateral Ventricle Arachnoid Cysts – Case Series with Proposed Classification	Manas Panigrahi	India
PP-050	Poster Session 1	Group 2	Neuroendoscopy	Ventricular Catheter Delivery Device in endoscopic procedures	Manas Panigrahi	India
PP-051	Poster Session 1	Group 3	Neuro-Oncology	Pediatric oncology neurosurgery, four years after centralization in the Princess Máxima Center	Kirsten Van Baarsen	Netherlands
PP-052	Poster Session 1	Group 3	Neuro-Oncology	Delay in the Diagnosis of Childhood Brain Tumours: Contributing Factors and Outcome A Systematic Review of the Literature	Kristy Kehoe	United Kingdom
PP-053	Poster Session 1	Group 3	Neuro-Oncology	Case Report: Childhood Intracranial Lesion Associated with Tonsoku-like DNA repair protein (TONSL) Mutation - A novel finding	Kristy Kehoe	United Kingdom
PP-054	Poster Session 1	Group 3	Neuro-Oncology	Paediatric Primary CNS Inflammatory Myofibroblastic Tumour: Two Cases of A Rare Paediatric Tumour	Lin Wei Ooi	Malaysia
PP-055	Poster Session 1	Group 3	Neuro-Oncology	Primary leptomeningeal medulloblastoma: a case-based review	Maria Rosaria Scala	Italy
PP-056	Poster Session 1	Group 3	Neuro-Oncology	Atypical ATRT With multiple Difusse lesions in posterior fossa and left Trigone	Mayra Arce Lozoya	Mexico
PP-057	Poster Session 1	Group 3	Neuro-Oncology	Papillary craniopharyngioma in an 8-year-old girl with BRAF V600E mutation	Nivedh Dinesh	Singapore
PP-058	Poster Session 1	Group 3	Neuro-Oncology	Management and outcomes of paediatric craniopharyngioma: A 15-year experience in Singapore	Rambert Wee	Singapore
PP-059	Poster Session 1	Group 3	Neuro-Oncology	The COMBAT Project - Core post operative morbidity set for paediatric brain tumours	Sandhya Trichinopoly Krishna	United Kingdom
PP-060	Poster Session 1	Group 3	Neuro-Oncology	Giant and rare cranial tumors in pediatrics – tips and tricks for successful Neurosurgical outcome	Saraj Kumar Singh	India
PP-061	Poster Session 1	Group 3	Neuro-Oncology	Application of neuroendoscopy in surgery for prepontine epidermoid cyst of children	Sheng Che Chou	Taiwan
PP-062	Poster Session 1	Group 3	Neuro-Oncology	Infantile Brainstem High Grade Glioma: A Case Report and Literature Review	Shi Hui Ong	Singapore
PP-063	Poster Session 1	Group 3	Neuro-Oncology	The outcome of children with craniopharyngioma treated in multidisciplinary team	Stawomir Blamek	Poland
PP-064	Poster Session 1	Group 3	Neuro-Oncology	Intraoperative MRI to improve accuracy of frameless biopsies in the pons	Sonia Tejada	Spain
PP-065	Poster Session 1	Group 3	Neuro-Oncology	Predictive factors for the occurrence of peri-surgical complications in pediatric posterior fossa tumors	Stephanie Anetsberger	Switzerland
PP-066	Poster Session 1	Group 3	Neuro-Oncology	Diffuse Leptomeningeal Glioneuronal Tumor of Childhood	Tatiana Protzenko	Brazil
PP-067	Poster Session 1	Group 3	Neuro-Oncology	Intraspinal cervical chondromesenchymal hamartoma as a presentation of DICER1 Syndrome in a newborn	Victor Javier Fernández Cornejo	Spain
PP-068	Poster Session 1	Group 3	Neuro-Oncology	Biopsy of paediatric brainstem intrinsic tumours: 10- year experience from a Singapore children's hospital	Yuan Guang Lim	Singapore
PP-069	Poster Session 1	Group 3	Neuro-Oncology	Extracranial metastases from high-grade gliomas	Yu-Cheng Chou	Taiwan

Poster Number	Poster Session	Poster Group	Topic	Title	Presenter	Country
PP-070	Poster Session 1	Group 3	Neurotrauma/Critical Care	Incidence of Shaken Baby Syndrome in Brazil public health over the last 6 years	Carolina Carmona Pinheiro Machado	Brazil
PP-071	Poster Session 1	Group 3	Neurotrauma/Critical Care	Protocolized management of isolated linear skull fractures at a Level 1 pediatric trauma center	Christopher M Bonfield	United States
PP-072	Poster Session 1	Group 3	Neurotrauma/Critical Care	Low Velocity Penetrating Injury Of The Central Nervous System in Children: A Report of Two Unusual Cases	Debajyoti Datta	India
PP-073	Poster Session 1	Group 3	Neurotrauma/Critical Care	Epidemiology Of Pediatric Traumatic Brain Injuries - Our institutional experience, Andhra medical college, Visakhapatnam,India	Hema Swaroop Kurumella	India
PP-074	Poster Session 1	Group 3	Neurotrauma/Critical Care	Global Epidemiology of Pediatric Traumatic Spinal Cord Injury: A Systematic Review and Meta-Analysis	Joseline Haizel Cobbina	United States
PP-075	Poster Session 1	Group 4	Neurotrauma/Critical Care	The Role of Virtual Planning and Modified CAD/CAM Implants in Cranioplasty	Malte Ottenhausen	Germany
PP-076	Poster Session 1	Group 4	Neurotrauma/Critical Care	Metabolic and microstructural changes in children with severe TBI. DTI and 1H MRS study	Maxim Ublinskiy	Russia
PP-077	Poster Session 1	Group 4	Neurotrauma/Critical Care	Growing Skull Fractures - An Uncommon Cause of Seizures	Merry Francis Kallely	India
PP-078	Poster Session 1	Group 4	Neurotrauma/Critical Care	Single Burr Hole Evacuation of Extradural Hematoma in Pediatric Population: An Experience from the biggest Children Hospital of Pakistan	Mian Awais	Pakistan
PP-079	Poster Session 1	Group 4	Neurotrauma/Critical Care	Long term outcomes in pediatric cranioplasty post decompressive craniectomy	Tarunesh Sharma	India
PP-080	Poster Session 1	Group 4	Neurotrauma/Critical Care	Pediatric retroclival hematomas: case series, systematic review, and a proposed novel approach for drainage	Yahya H. Khormi	Saudi Arabia
PP-081	Poster Session 1	Group 4	Other	Knowledge, Attitude and Practices Related to Craniosynostosis Among Physicians in Saudi Arabia: "A Cross-Sectional Study"	Abdulrazaq Abdulmohsen Alojjan	Saudi Arabia
PP-082	Poster Session 1	Group 4	Other	Neurosurgical Management of Hydrocephalus and Cerebellar Tonsillar Herniation in the Megalencephaly-Capillary Malformation-Polymicrogyria Syndrome	Alon Kashanian	United States
PP-083	Poster Session 1	Group 4	Other	Single Institution Feasibility Trial: Incorporating Pediatric Patient Reported Outcome Scales into Clinic Workflows	Ben S Succop Jr	United States
PP-084	Poster Session 1	Group 4	Other	Development of pediatric neurosurgery in Mongolia	Byambatsend Byambaa Dorjsuren	Mongolia
PP-085	Poster Session 1	Group 4	Other	Frontal Sinus Hypoplasia in Unoperated Older Patients with Craniosynostosis: A Pilot Study	Chris Bonfield	United States
PP-086	Poster Session 1	Group 4	Other	Evaluating Caregiver Stress in Craniosynostosis Patients	Christopher M Bonfield	United States
PP-087	Poster Session 1	Group 4	Other	Simple vacuum extractor treatment for ping pong skull depressed fractures	Mauricio Daniel Puch	Bolivia
PP-088	Poster Session 1	Group 4	Other	Intraoperative Monitoring in Pygopus Separation: What We Have Learned So Far	Nadya Zaragita	Indonesia
PP-089	Poster Session 1	Group 4	Other	Imaging of Encephaloceles	Peter Kalina	United States
PP-090	Poster Session 1	Group 4	Other	5 Years Follow up of Successful Craniopagus Separation	Setyo Budi Premiaji Widodo	Indonesia
PP-091	Poster Session 1	Group 4	Other	A Case of Encephalocele which Developed Hydrocephalus After the First Surgical Repairment	Taekyun Kim	Japan
PP-092	Poster Session 1	Group 4	Other	Muenke Syndrome - Unusual presentation	Tatiana Protzenko	Brazil

Poster Number	Poster Session	Poster Group	Topic	Title	Presenter	Country
PP-094	Poster Session 1	Group 4	Peripheral nerve	Dynamic Reanimation of Facial Paralysis in Children by using Masseteric Nerve	Anh Mai Bui	Vietnam
PP-095	Poster Session 1	Group 4	Vascular	Our experience with pediatric vascular malformations	Dan Aurel Nica	Romania
PP-096	Poster Session 1	Group 4	Vascular	De-novo Arteriovenous malformation in a 8 year old and Neurosurgical implication: Case report and literature review	Ieva Sataite	United Kingdom
PP-097	Poster Session 1	Group 4	Vascular	Right side posterior interhemispheric transcalfine retrosplenial transprecuneus approach for the resection of bilateral peritrial cavernous malformation	Jose Ascencion Arenas Ruiz	Mexico
PP-098	Poster Session 1	Group 4	Vascular	Arare case of mirror arteriovenous malformation	Suchanda Bhattacharjee	India
PP-099	Poster Session 1	Group 4	Vascular	Ruptured ACA aneurysm in an infant with poor prognosis: case report and reviews of the literature	You Nam Chung	South Korea
PP-100	Poster Session 2	Group 5	Hydrocephalus	Treatment of myelomeningocele in Japan: Analysis of the medical claims database in Japan	Masahiro Nonaka	Japan
PP-101	Poster Session 2	Group 5	Antenatal diagnosis and treatment	Developmental outcomes and peri-natal diagnosis of agenesis of the corpus callosum	Fareha Khalil	Ireland
PP-102	Poster Session 2	Group 5	Antenatal diagnosis and treatment	Proposal of a protocol for assessment of motor development of children submitted to antenatal myelomeningocele repair	Renata Viana Brigido De Moura Jucá	Brazil
PP-103	Poster Session 2	Group 5	Dysraphism	Neural Tube Defects cases in an Indonesian Industrial Area Referral Hospital during Covid-19 Pandemic	Andi Nugraha Sendjaja	Indonesia
PP-104	Poster Session 2	Group 5	Dysraphism	Early Experience during COVID 19 Pandemic: Multidisciplinary Management of Lipomyelomeningocele	Astri Avianti	Indonesia
PP-105	Poster Session 2	Group 5	Dysraphism	Congenital Midline Spinal Hamartoma in a 5-month-old Infant	Eric Brahm Malelak	Indonesia
PP-106	Poster Session 2	Group 5	Dysraphism	New mutation in hereditary Dandy-Walker with occipital cephalocele	Frank Van Calenbergh	Belgium
PP-107	Poster Session 2	Group 5	Dysraphism	Epidemiology of myelomeningocele- North coastal Andhra, India Genetic, Social,Economic,Environmental Factors affecting the occurrence	Hema Swaroop Kurumella	India
PP-108	Poster Session 2	Group 5	Dysraphism	Preventive Strategy For Spinal Dysraphism - Pilot Project In North Andhra, India, Salt Fortification With Folic Acid	Hema Swaroop Kurumella	India
PP-109	Poster Session 2	Group 5	Dysraphism	Supratentorial Anomalies in Spina Bifida	Ibrahim Alatas	Türkiye
PP-110	Poster Session 2	Group 5	Dysraphism	Multidisciplinary Clinic for Closed Spinal Dysraphisms	Laura Grazia Valentini	Italy
PP-111	Poster Session 2	Group 5	Dysraphism	Delayed Diagnosis of Cervical Dermal Sinus Tract in an Infant with Meningitis and Hydrocephalus	Mary Angeline Luz Ubias Hernandez	Philippines
PP-112	Poster Session 2	Group 5	Dysraphism	The challenging treatment of a giant anterior meningoencephalocele in the newborn: About one case	Nabila Tighilt	Algeria
PP-113	Poster Session 2	Group 5	Dysraphism	Surgical treatment of split cord malformation type I with scoliosis	Olga M Sergeenko	Russia
PP-114	Poster Session 2	Group 5	Dysraphism	Fronto-ethmoido-nasal cephalocele in Bamako what surgical approach	Oumar Diallo	Mali
PP-115	Poster Session 2	Group 5	Dysraphism	Spinal dysraphism:A way forward from our own experiences in treatment and prevention in LMIC's	Prashanth Thalluri	India
PP-116	Poster Session 2	Group 5	Dysraphism	Are prophylactic surgeries for lipomyelomeningoceles really prophylactic? A case of an asymptomatic lipomyelomeningocele with contradictory neurophysiology findings	Raenette David	United Kingdom

Poster Number	Poster Session	Poster Group	Topic	Title	Presenter	Country
PP-117	Poster Session 2	Group 5	Dysraphism	Incidence of neural tube defects in Bahrain	Taha Ali Alderazi	Bahrain
PP-118	Poster Session 2	Group 5	Epilepsy	An ex vivo model to study fast ripple high-frequency oscillations detected by SEEG using dedicated surgical specimens from pediatric focal epilepsy patients	Adriano Cattani	Canada
PP-119	Poster Session 2	Group 5	Epilepsy	Transitional Care for Epilepsy: A Systematic Review	Sandi Lam	United States
PP-120	Poster Session 2	Group 5	Epilepsy	Seizure control after surgery of temporal lobe pathology: An Institutional experience	Suchanda Bhattacharjee	India
PP-121	Poster Session 2	Group 5	Functional	Patient and Caregiver Reported Outcome Measures after Single-Level Selective Dorsal Rhizotomy in Pediatric Patients with Spastic Cerebral Palsy	Jehuda Soleman	Switzerland
PP-122	Poster Session 2	Group 5	Functional	Microsurgical DREZotomy in spastic cerebral palsy: For a child with a little, a little is a lot	Nishant Goyal	India
PP-123	Poster Session 2	Group 6	Germ Cell Tumors	Congenital intraventricular tumors: illustrative case and systematic review	Manilyn Ann Hong	Philippines
PP-124	Poster Session 2	Group 6	Germ Cell Tumors	Porencephaly with Suprasellar Dermoid Cyst- A Novel Illustrative Report	Mitesh Karn	Nepal
PP-125	Poster Session 2	Group 6	Germ Cell Tumors	A rare recurrent intramedullary immature teratoma, diagnostic and management dilemma: A case report and literature review	Tarunesh Sharma	India
PP-126	Poster Session 2	Group 6	Global Pediatric Neurosurgery	High definition 2-D VITOM (Video Telescope Operating Monitor) assisted brain and spinal surgery in paediatrics: Is it an acceptable substitute for microscopic surgery?	Anand Kumar Das	India
PP-127	Poster Session 2	Group 6	Global Pediatric Neurosurgery	Infantile macrocephaly: Complicated familial benign enlargement of subarachnoid space (BESS) in twins of suspected nonaccidental injury	Azam Ali Baig	United Kingdom
PP-128	Poster Session 2	Group 6	Global Pediatric Neurosurgery	Craniosynostosis: A comparative analysis between surgical and clinical incidence in public health in Brazil	Carolina Carmona Pinheiro Machado	Brazil
PP-129	Poster Session 2	Group 6	Global Pediatric Neurosurgery	Neurologist and Neurosurgeon: a 'sine qua non' in paediatric intracranial pathology management	Chandrasekaran Kaliaperumal	United Kingdom
PP-130	Poster Session 2	Group 6	Global Pediatric Neurosurgery	Incidental Intracranial arachnoid cysts in the paediatric population- An institutional longitudinal review	Chandrasekhar Kaliaperumal	United Kingdom
PP-131	Poster Session 2	Group 6	Global Pediatric Neurosurgery	Predictive outcome value of angular craniometry in surgical treatment of cerebellar tonsillar herniation	Federico Di Rocco	France
PP-132	Poster Session 2	Group 6	Global Pediatric Neurosurgery	Transitional Care in Pediatric Brain Tumor Patients: A Systematic Literature Review	Jehuda Soleman	Switzerland
PP-133	Poster Session 2	Group 6	Global Pediatric Neurosurgery	{Vertebral and Costal Anomalies in Jarcho-Levin Syndrome: study of 121 cases}	Ibrahim Alatas	Türkiye
PP-134	Poster Session 2	Group 6	Global Pediatric Neurosurgery	Reddit users seek medical information for pediatric neurosurgery conditions online: a descriptive study	Jeffrey Steven Raskin	United States
PP-135	Poster Session 2	Group 6	Global Pediatric Neurosurgery	Arachnoid cyst complicated by bleeding - case study	Magdalena Zgoda Aleksandrowicz	Poland
PP-136	Poster Session 2	Group 6	Global Pediatric Neurosurgery	Negative pressure epidural syndrom,Causes of hemodynamic instability in children after Applying Negative Pressure to epidural Draining catheter after Craniotomy	Mohammad Sadegh Masoudi	Iran
PP-137	Poster Session 2	Group 6	Global Pediatric Neurosurgery	Safety and Clinical Utility of Intraoperative cerebral angiography during surgery for paediatric arteriovenous malformations	Natasha Aziz	United Kingdom
PP-138	Poster Session 2	Group 6	Global Pediatric Neurosurgery	Brain imaging to identify possible resectable brain lesion is vital when dealing with drug resistant epilepsy: incidental finding of a right peri-rolandic mass in a 15 years old boy with failed medical seizure treatment for years	Tee Tau Eric Nyam	Taiwan

Poster Number	Poster Session	Poster Group	Topic	Title	Presenter	Country
PP-139	Poster Session 2	Group 6	Infection	The Impact of Shunt Protocol on Reducing the Infection Rate Following Shunt Placement: "A Single Institutional Experience in Saudi Arabia"	Abdulrazaq Abdulmohsen Alojani	Saudi Arabia
PP-140	Poster Session 2	Group 6	Infection	The Association Between Procalcitonin Level In Children With Ventriculitis In Rural Hospital In Medan Year 2020-2021	Abdurrahman Mouza	Indonesia
PP-141	Poster Session 2	Group 6	Infection	Use of non enhanced MRI for follow up of intracranial infections using diffusion weighted sequence	Alya Hasan	Kuwait
PP-142	Poster Session 2	Group 6	Infection	Causal Inference of Infectious Diseases on Hydrocephalus	Andrew T Hale	United States
PP-143	Poster Session 2	Group 6	Infection	Intracranial empyemas in the COVID-19 era: a new pandemic? A paediatric case series and review of the literature	Benjamin J. Hall	United Kingdom
PP-144	Poster Session 2	Group 6	Infection	Global Epidemiology of Central Nervous System Infections in Pediatric Patients: A Systematic Review and Meta-Analysis	Joseline Haizel Cobbina	United States
PP-145	Poster Session 2	Group 6	Infection	Comparison of Outcome in Neurosurgically Treated Pediatric Subdural Empyema with or without Simultaneous Source Control Surgery	Ladina Greuter	United Kingdom
PP-146	Poster Session 2	Group 6	Infection	Management of subdural empyemas	Rajeev Kariyattil	Oman
PP-147	Poster Session 2	Group 7	Neuroendoscopy	Pure endoscopic treatment for Sylvian arachnoid cysts	Oscar Garcia González	Mexico
PP-148	Poster Session 2	Group 7	Neuroendoscopy	Endoscopic third ventriculostomy with choroid plexus cauterization in treating infantile hydrocephalus: an experience from Mali	Oumar Diallo	Mali
PP-149	Poster Session 2	Group 7	Neuroendoscopy	Endoscopic ultrasonic aspiration as alternative to more invasive surgery in initial management of optic pathway gliomas in children	Maria Rosaria Scala	Italy
PP-150	Poster Session 2	Group 7	Neuro-Oncology	Frameless stereotactic biopsy for Midline lesions of the brain in Pediatric population	Abhinith Shashidhar	India
PP-151	Poster Session 2	Group 7	Neuro-Oncology	The elusive clinical behavior of low grade glioneural tumors	Adrian Caceres	Costa Rica
PP-152	Poster Session 2	Group 7	Neuro-Oncology	Cranial vault pediatric tumors: different technique to ensure total removal	Cecilia Casali	Italy
PP-153	Poster Session 2	Group 7	Neuro-Oncology	Posterior fossa pilocytic astrocytoma contributing to paediatric obstructive sleep apnoea: A case report and review of literature	Chandrasekaran Kaliaperuma	United Kingdom
PP-154	Poster Session 2	Group 7	Neuro-Oncology	A 5-year outcome of Propranolol for the treatment of paediatric intracranial cavernoma: Case report and a review of the literature	Chandrasekaran Kaliaperumal	United Kingdom
PP-155	Poster Session 2	Group 7	Neuro-Oncology	Survival Outcomes of Primary CNS Brain Tumours in Children: a single-centred retrospective observational study	Chandrasekaran Kaliaperumal	United Kingdom
PP-156	Poster Session 2	Group 7	Neuro-Oncology	A rare presentation of a bilateral intracranial Parameningeal Embryonal Rhabdomyosarcoma in a 2-year-old child which mimicked Vestibular Schwannoma: a case report	Chandrasekaran Kaliaperumal	United Kingdom
PP-157	Poster Session 2	Group 7	Neuro-Oncology	Pediatric Brain Tumour: A Study of One-year Data from a Tertiary Neurosurgical Centre, Myanmar	Ei Ei Khaing	Myanmar
PP-158	Poster Session 2	Group 7	Neuro-Oncology	Case report of EBV associated smooth muscle intracranial tumour in a child	Felicia Hui Zhuang Chua	Singapore
PP-159	Poster Session 2	Group 7	Neuro-Oncology	Choroid plexus papillomas in the first year of life: The value of pre-operative embolization and the interpretation of leptomeningeal enhancement in atypical tumors	Francesco Sala	Italy
PP-160	Poster Session 2	Group 7	Neuro-Oncology	Trends in Pediatric Brain Tumor Incidence in Dr. Sardjito General Hospital, Yogyakarta, Indonesia, from 2020 – 2022	Handoyo Pramusinto	Indonesia
PP-161	Poster Session 2	Group 7	Neuro-Oncology	Outcomes in surgical management of Craniopharyngiomas in pediatric age group at a high volume tertiary referral centre in India	Harshal Nandlal Agrawal	India

Poster Number	Poster Session	Poster Group	Topic	Title	Presenter	Country
PP-162	Poster Session 2	Group 7	Neuro-Oncology	Second-look surgery for pineal region tumors	Hideki Ogiwara	Japan
PP-163	Poster Session 2	Group 7	Neuro-Oncology	Comparison of clinical features and treatment outcomes of pilocytic astrocytoma in pediatric and adult patients	Joo Whan Kim	South Korea
PP-164	Poster Session 2	Group 7	Neuro-Oncology	Central Nervous System Tumor in Children. The Cuban Experience	Julio S. Brossard Alejo	Cuba
PP-165	Poster Session 2	Group 7	Neuro-Oncology	Intratumoral bleed in pediatric primary spinal intradural Ewing's sarcoma presenting with acute neurological decline	Karthigeyan Madhivanan	India
PP-166	Poster Session 2	Group 7	Neuro-Oncology	Place of neo/adjuvant chemotherapy and limited surgery in the treatment of non-metastatic childhood medulloblastoma	Kévin Beccaria	France
PP-167	Poster Session 2	Group 7	Occult tethered cord	Tethered cord diagnosis by MRI in supine and prone children positioning	Cordula Scherer	Switzerland
PP-168	Poster Session 2	Group 7	Occult tethered cord	Posttubercular Arachnoid Cyst and Syringomyelia with Severe Spastic Paraplegia: case report and review of literature	Hsin Hung Chen	Taiwan
PP-169	Poster Session 2	Group 7	Occult tethered cord	Elucidate surgical treatment criterias in tethered cord syndrome in patients with myelomeningocele	Ibrahim Alatas	Turkey
PP-170	Poster Session 2	Group 7	Occult tethered cord	Sudden deterioration in previously undiagnosed occult dysraphism	Luca Massimi	Italy
PP-171	Poster Session 2	Group 7	Occult tethered cord	Cervical spine dermal sinus tract in children	Pi Doanh Ngoc Nguyen	Vietnam
PP-172	Poster Session 2	Group 8	Other	Squamosal Suture Synostosis and Hydrocephalus: A Minor Suture with Major Implications	Daphne Li	United States
PP-173	Poster Session 2	Group 8	Other	Early Bone Reformation after Cranial Vault Remodelling for Sagittal Craniosynostosis	Elie Hammam	Australia
PP-174	Poster Session 2	Group 8	Other	Surgical Drain Induced Subgaleal Hematomas and Skin Necrosis in Pediatrics: a Case Report	Gigih Aditya Wardana	Indonesia
PP-175	Poster Session 2	Group 8	Other	A pediatric case of an intradiploic epidermoid cyst with cranial bone invasion	Hema Swaroop Kurumella	India
PP-176	Poster Session 2	Group 8	Other	Pragmatism in Pediatric Neurosurgery: A Systematic Literature Review and Analysis	Jochem Spoor	Netherlands
PP-177	Poster Session 2	Group 8	Other	Long-term results of minimally invasive strip craniectomy without helmet therapy for scaphocephaly - a single-center experience	Katharina Lutz	Switzerland
PP-178	Poster Session 2	Group 8	Other	Skull Base and Craniocervical Junction Abnormalities in Patients with Crouzon Syndrome	Kerrin Sunshine	United States
PP-179	Poster Session 2	Group 8	Other	Neurosurgical Treatment and Outcome of Pediatric Skull Base Lesions: A Case Series and Systematic Review of the Literature	Ladina Greuter	Switzerland
PP-180	Poster Session 2	Group 8	Other	Craniosynostosis in primary metabolic bone disorders: a 10-year single institution experience	Maria A. Punchak	United States
PP-181	Poster Session 2	Group 8	Other	Clinical variety and prognosis of arachnoid cysts in children	Martina Messing Jünger	Germany
PP-182	Poster Session 2	Group 8	Other	MR exams under drug-free sedation with fixation device	Masahiro Kameda	Japan
